# **hp** LaserJet 1300/n printer

Promote your business effectively with the HP LaserJet 1300 series printer. With this network capable, flexible and compatible black and white printer you can produce business documents reliably and its compact desktop design fits most work spaces.

A very reliable black and white printing solution for business professionals working in any size office, who need a fast and flexible personal printer with network capabilities and additional paper handling for their business documents.

#### The efficient, reliable way to produce great looking, high quality documents quickly and easily.

- No wait for the printer to warm up as an instant-on fuser ensures the first page prints in just 8 seconds and print speeds of up to 19 ppm (A4).
- HP LaserJet printing technology (All-in-One cartridge and charging rollers) ensures a safer environment with no appreciable ozone emissions and no manual maintenance required.
- An HP Embedded Web Server provides direct access to the printer via a standard web browser, and allows full control to configure device settings and e-mail alerts remotely.

### High performance laser printing you can expand easily to meet your business needs.

- Set up quickly and connect easily using the USB or parallel ports. Use the flexibility of the LIO port by sharing the printer through the HP Jetdirect LIO internal print server\* or add a wireless external print server to extend your printing options.
- Use the DIMM slot to add more memory, fonts, or third-party solutions.
- Add a 250-sheet tray to the existing 250-sheet tray and 10-sheet input slot for greater media input capacity.
- Supports a wide range of media types and sizes.

#### Get the most from compatibility in any environment and support for a range of operating systems.

- Compatible in most environments supporting HP PCL 5e, PCL 6 and HP Postscript level 2 emulation.
- Supports many operating systems including Windows® 95, 98 and higher, Mac® OS 8.6, 9.x and OS X, Linux, UNIX®, and MS-DOS.
- Take the headache out of managing your printer and supplies with the Embedded Web Server and e-labels in Smart print supplies for easy status monitoring and printer support.
